Subject: TIME SENSITIVE EA: description of sites

Hi Julie,

Response to your first Q can be found in the attached (paragraph 1); response to your second Q can be found in the attached s.6(e), also pasted below.

- Definition of what is critical infrastructure

critical infrastructure means the following places, including any land on which they are located:

(a) airports, aerodromes, heliports, harbours, ports, piers, lighthouses, canals, railway stations, railways, tramway lines, bus stations, bus depots and truck depots;

(b) infrastructure for the supply of utilities such as water, gas, sanitation and telecommunications;

(c) international and interprovincial bridges and crossings;

(d) power generation and transmission facilities;

(e) hospitals and locations where COVID-19 vaccines are administered;

(f) trade corridors and international border crossings, including ports of entry, ferry terminals, customs offices, bonded warehouses, and sufferance warehouses.
(infrastructures essentielles)

- Where do war memorial fit in (this was asked yesterday at the briefing)

(e) any property that is a building, structure or part thereof that primarily serves as a monument to honour persons who were killed or died as a consequence

of a war, including a war memorial or cenotaph, or an object associated with honouring or remembering those persons that is located in or on the grounds of such a building or structure, or a cemetery;

Many thanks,

Carly
